EDUCATION

Andhra University College of Engineering for Women Visakhapatnam, India
Bachelor of Technology (B.Tech) – Information Technology 2024 – 2028
CGPA: 8.7/10
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript
Backend Development: Spring Boot, Spring Security, Java Servlets, JDBC, REST APIs, JWT Authentication
Web Development: React.js, HTML5, CSS3, Material UI, React Router, Axios, Responsive Web Design
Databases: MySQL, SQL (CRUD Operations, Joins, Aggregate Functions), Database Design
Software Engineering: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Operating Systems, SDLC, Agile Development
Tools & Technologies: Git, GitHub, Maven, Postman, Apache Tomcat, VS Code, Eclipse

PROFESSIONAL EXPERIENCE

GenIT Edge LLP Remote
Junior Software Engineer Intern May 2026 – June 2026

- Built 3 backend modules using Java, JDBC, handling data across 5+ MySQL tables
- Developed 4 responsive UI pages using HTMLCSS for inventory workflows
- Deployed applications on Apache Tomcat and resolved 10+ runtime/config issues
- Wrote 20+ SQL queries for efficient data retrieval and management
- Tested 15+ REST APIs using Postman for seamless frontend-backend integration
- Collaborated with a team of 3 developers following SDLC practices

PROJECTS

Multi-Workforce Management System (On going) | *React.js, Spring Boot, Spring Security, JWT, MySQL*

- Designed and developed a multi-tenant Workforce Management System supporting 10+ organizational roles, by implementing role-based access control (RBAC) using React, Spring Boot, and MySQL.
- Improved workforce administration efficiency by centralizing employee, attendance, and company management into a single platform, by building secure REST APIs and a scalable database architecture.
- Enabled company-level data isolation and hierarchical user management across multiple organizations, by developing a SaaS-ready architecture with JWT authentication and permission-based access controls.

AI-Powered Internship Tracker | *React, Spring Boot, Spring Security, JWT, MySQL, PDFBox, Apache POI*

- Reduced manual internship search effort by organizing and filtering opportunities across multiple sources, by implementing a Search Matrix Engine with role- and level-based matching logic.
- Improved resume-job alignment by extracting and analyzing 100+ technical keywords from uploaded resumes and internship requirements, by developing a PDF/DOCX skill extraction and scoring system.
- Enabled data-driven career planning through real-time dashboards and application analytics, by integrating Recharts visualizations, profile-based recommendations, and progress tracking features.

ACHIEVEMENTS

- Completed Google AI 5-Day Learning Program, gaining foundational exposure to Artificial Intelligence concepts.
- Vice President, Edumoon Entrepreneurship Student Club – Selected for leadership, teamwork, and organizing student entrepreneurial initiatives.
- Solved 200+ DSA problems on LeetCode
